1 SEND A SAMPLE CHEQUE

A sample cheque (marked "VOID") showing correct MICR encoding is required to process your order. New chequing accounts must include a MICR specification sheet from your bank (no deposit slips please).

2 SPECIFY IMPRINT INFORMATION

Cheques include seven areas of imprinting (shown above) at no additional charge. Consecutive numbering is included in the MICR encoding. A second signature line or other wording in the signature area is available on most cheques.

3 SPECIFY CONSECUTIVE NUMBERING

If a starting number is not specified, 1001 will be used (not available for all cheque styles).

4 CHOOSE A TYPESTYLE

Choose a typestyle for the first line of your imprint. If no Typestyle is specified, Typestyle 1 will be used.

HIGH SECURITY CHEQUE FEATURES

Maximum Protection.

Get peace of mind with High Security protection, for only pennies more per cheque.

CUTTING-EDGE
FEATURES!

High Security Cheques

INTRICATE DESIGN BORDER

Intricately designed border is difficult to reproduce.

HIGH-SECURITY BACKGROUND COLOURS

Copiers and scanners cannot effectively reproduce these designs.

THERMOCHROMIC INK

Ink reacts to heat to deter and detect copying. Holding between thumb and forefinger, the ink will disappear on a legitimate cheque, validating its authenticity.

Look for this icon to identify our High Security Cheques!

ANTI-COPY TECHNOLOGY

This feature makes it very difficult to copy a document on the majority of copiers in use today.

FOIL HOLOGRAM

Our multicoloured, dimensional foil includes **embedded security features** and cannot be reproduced by copiers or scanners.

CHEMICAL-WASH DETECTION AREA

Chemical alteration attempts result in speckling or stains in this lock area.

ORIGINAL DOCUMENT BACKER

Original document screening deters cut-and-paste alteration attempts.

TRUE WATERMARK

Watermark pressed into paper can be seen by holding the cheque up to a light source but cannot be reproduced by copiers or scanners.

Cheque images are subject to change as we continue to enhance our manufacturing and security technologies.

Also includes these security features:

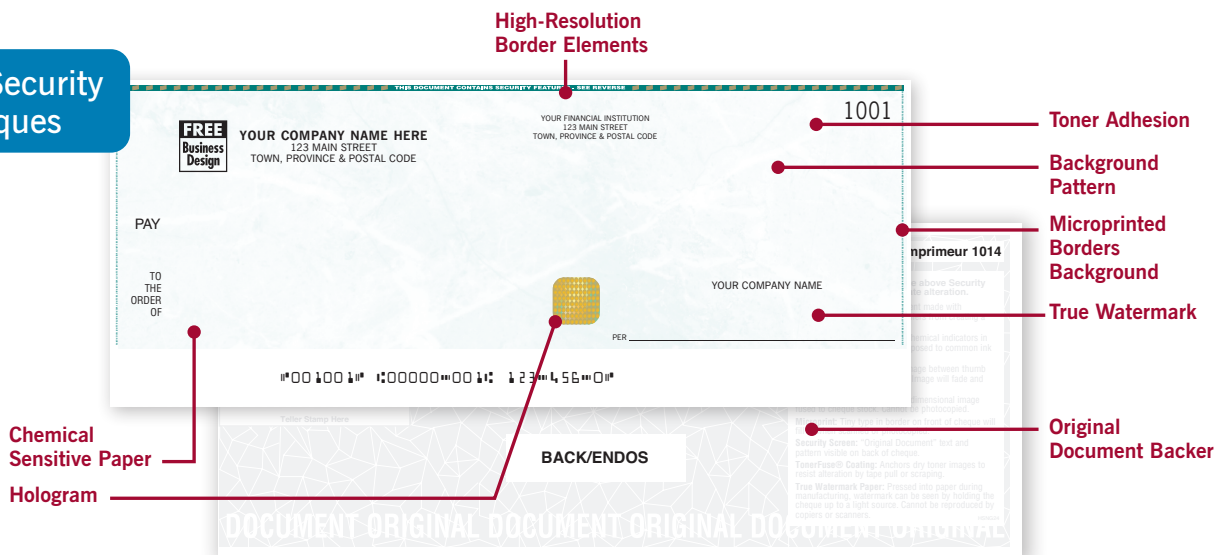

- Chemical-sensitive paper
- Consecutive numbering
- Microprinted borders
- Toner adhesion
- Padlock icon
- Security warning box
- Warning border
- High-resolution border elements
- Colour pantograph background pattern
