# OUR COMMITMENT TO SUSTAINABLE SOLUTIONS

We are focused on delivering environmentally responsible solutions. Here are a few examples of our ongoing efforts:

- Strengthening our range of sustainable product options
- Incorporating sustainability into our updated Supplier Code of Conduct
- Transitioning a portion of our internal plastic packaging to compostable materials, with a long-term goal of using recycled-content plastic
- Powering 50% of our manufacturing facility with solar energy
- Utilizing 100% recycled polyester knit for all our polyester knit graphics

## MAKE SUSTAINABLE CHOICES AND LEARN ABOUT THE BENEFITS OF OUR ECO-FRIENDLY MEDIA

### Recycled Polyester Knit

This 100% recycled media is made with fibers recycled from plastic bottles. Recycled bottles are collected worldwide, cleaned and flaked, and made into resin that can be made into fibers.

### PVC-Free Media

This PVC-free media is made from polyester, nylon and polyurethane. The benefits of PVC-free media include a reduction in toxic chemicals released into the environment, lower levels of VOCs (volatile organic compounds).

### Biodegradable Fabric

This media is made with CiCLO technology. CiCLO-treated microfibers biodegrade 91.1% compared to untreated microfibers, a rate comparable to wool.

### Corrugated Plastic

This corrugated plastic is made of 100% polypropylene. This media is 100% recyclable. Recycling of plastic combats adverse environmental impacts; polypropylene is blue bin recyclable and falls under the #5 resin recyclability code.

### Corrugated Cardboard, Paper-Based Media and 3 mm Paperboard

Made from cellulose-based printing paper and corrugated cardboard. Media is recyclable through a majority of curbside recycling programs.

## have you considered...

- **size** what is the size of your table?
- **fabric/media** what type of material are you looking for?
- **frequency** how often will you be using your table cover?
- **use** will people be sitting at the table, or will it be used to showcase merchandise or promotional materials?
- **message** do you want a logo printed on the front or would you like a design that covers the entire throw?

## how to **DISPLAY**

Table covers can bring a sense of professionalism and branding consistency to your events. Display at various types of events, such as trade shows, seminars, product launches, job fairs, craft fairs, fundraisers, and pop-up shops.

# RETRACTABLE BANNERS

1. InstaChange page 37 2. Deluxe Pro page 33 3. Economy pages 30-31

## have you considered...

- **use** will this product be used on a floor or on a tabletop?
- **flexibility** will your graphic be permanent or will you be swapping it out frequently?
- **frequency** how often will your retractor be set up and taken down?
- **location** will your retractor be used indoors or outdoors?
- **message** do you want a single- or double-sided display?

## how to **DISPLAY**

Retractable banners are great for their versatility, portability and reusability. Setting up a retractable banner is quick and easy, requiring minimal effort. Use at promotional events, conventions, product launches, food festivals, and corporate events.

## AMERICA'S FINEST RETRACTOR

To guarantee superior quality, we have developed an RCAT (Retractor Calibration Assessment Test) machine that assesses retractable banner components. Each retractor is tested and rated to a minimum number of times it will extend and retract with normal use, helping you find a retractor that meets your exact needs. The RCAT rating certification lets you have confidence in your retractable banner display, no matter which one you choose.

### Top Seller

Anti-curl properties for a taut banner.

High-quality fabric that prevents curling. Silver backing makes it opaque.

Durable vinyl repels water and cleans easily for extended outdoor use.

Lightweight, no-glare fabric prevents curling.

This media is an alternative to traditional vinyl as it does not contain polyvinyl (PVC).

Smooth vinyl material, ideal for high-quality graphics.

Smooth, glossy surface that can be written or drawn on with a dry-erase marker.

Tear-resistant matte media for temporary use.

Backlit film allows for light to shine through your artwork.

For best results, push swedge poles into the ground and hold the top half of each side to keep it taut.

Included rope loops through grommets to keep the banner secure and taut.

Hook-and-loop fasteners are strong enough to hold the two panels together but make the banner easy to burst through.

## TEARAWAY BANNER

view video

### Create a grand entrance at sporting events with a Tearaway Banner. Burst it apart and put it back together again!

- Artwork is printed on recycled polyester knit
- 100% recycled media is made with fibers recycled from plastic bottles
- The tearaway banner is made of two panels that attach to one another using hook-and-loop fasteners
- Each panel features a 3" pole pocket along the edge; pole pockets are closed at the top to prevent the banner from sliding down the poles
- Double-needle hem along the non-pole-pocket edge
- Banners used outdoors have a 90-day warranty; banners used indoors have a 1-year warranty

# TENTS

1. Premium Gable 15' Tent with Full Wall pages 109 & 113 2. Deluxe 8' Tent with Half Wall pages 103 & 112

## have you considered...

- **location** where will this tent be used?
- **longevity** will you be using your tent for one or multiple events?
- **message** what is the desired impact of your promotional message?
- **weather** will you need additional reinforcement against wind?
- **accessories** would you like to add additional ad space?

## how to **DISPLAY**

Branded tents increase your visibility and brand recognition from a distance. Tents can provide shelter from the elements and define a space for specific activities; such as product displays, demonstrations or meetings. Perfect for outdoor events.

**Beaufort Wind Rating:** Select products have been rated on the Beaufort Wind Scale. See rating icon underneath the product name. Wind ratings were determined utilizing all available securing/stabilizing options sold with or offered for the product. Review the Beaufort Scale on page 219 for additional details.  
**Disclaimer:** Wind rating conducted in a controlled environment. Outdoor products should be taken down if bad weather is likely. Wind gusts and heavy rain could reduce the wind resistance of these products.

## 10' OMNI TENT

This tent is designed for portability. It features an innovative central hub design that makes it a snap to set up.

- 1.25" diameter octagon legs constructed of 0.8 mm anodized aluminum
- Canopy is constructed of durable, weather-resistant 600 denier polyester
- Hybrid construction with aluminum legs and steel truss
- The included soft case slides over the frame when it's fully collapsed
- The tent can be secured to the ground with the included stake kit
- Frame must be secured to the ground to prevent wind damage (failure to secure the tent voids the warranty)
- Canopy available in eight stock colors (see page 100), with full-bleed dye sublimation or with full-bleed UV printing

## have you considered...

- **location** will your sign be used indoors or outdoors?
- **longevity** how long will your sign be displayed?
- **flexibility** will your message be permanent or will it change frequently?
- **transport** will your sign be stationary or will you be transporting it from place to place?

## how to **DISPLAY**

Use signage to establish a strong presence. Incorporating signage throughout your business or event, including directional and informational signs, helps your customers navigate spaces easily and enhance their overall experience.

## TRIGA® GO MODULAR DISPLAY SYSTEM

The TRIGA® Go modular display system is a lightweight, portable display solution designed for easy setup and customization. It offers a sleek and professional presence for trade shows, events, and brand activations.

- Modular design allows you to expand and modify into various configurations
- Combine with other TRIGA® Go components to craft a highly adaptable and visually striking display (sold separately)
- Innovative fabric tension poles ensure a wrinkle-free finish
- One-piece wraparound graphic provides a polished look
- Available in single- and double-sided options
- Artwork is dye sublimated on recycled polyester knit
- 100% recycled media is made with fibers recycled from plastic bottles
- Compact and lightweight
- Packs flat for easy transport
- Tool-free assembly
- Warranties range between two and three years (see website for details)

Graphic simply slides into grooves on the top and bottom rails.

Easily connect horizontal rails to vertical poles.

Join the top and bottom poles by turning the connector to lock.

Corner braces provide added stability to your display.

## VECTOR ART

(RECOMMENDED FOR ALL PRODUCTS)

- Can be scaled to any size while maintaining quality
- Known as line art
- Vector artwork is preferred (unless printing photos)

.eps, .ai, .pdf

## OUTLINED FONTS

(REQUIRED FOR ALL PRODUCTS)

Font selection can vary from computer to computer, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to curves before submitting artwork.

## EMBEDDED IMAGES

(REQUIRED FOR ALL PRODUCTS)

Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can suddenly vanish when opened from a different computer. Embed all images to avoid losing them when files are submitted.

## RASTER ART

- Known as bitmap art
- Composed of pixels (or tiny squares) grouped together to make one complete image
- When scaled larger, the image will look pixelated (or jagged)
- Submit art at 200 DPI (dots per inch) at full size

.tif, .psd, .eps, .pdf, .jpg

200 DPI

**High resolution images include:**  
Unedited, original raw digital photos and stock photos

10 DPI

**Low resolution images include:**  
Photos taken from the internet, scanned images, photos taken on a cell phone, screenshots, etc.

## UNACCEPTABLE FILE FORMATS:

Quark, Corel Draw, Word, PowerPoint, Excel, Publisher, Pagemaker, low-resolution scanned images and files over 2 GB. (InDesign files, unless exported to .eps or .pdf format, will incur additional charges or be rejected).

## FILE PREPARATION

### PRODUCT TEMPLATES - SHOWDOWNDISPLAYS.COM

Graphic templates can be found in the "Templates/Specs" tab on each product page of our website. Graphic dimensions are subject to change without notice.

### REQUIREMENTS

Documents must be print-ready and submitted at 100% final size, with no additional manipulation necessary; additional charges may apply if these terms are not met. Before submitting artwork, convert all text to outlines, paths or curves to ensure exact duplication of type style. Alterations to submitted artwork will result in a necessary proof approval, which may delay production time. We reserve the right to delay or reject any order based on the quality of the artwork received.

We also reserve the right to make slight alterations to your file to adapt to our printing process. Some thin lines or small shapes may not reproduce at the size or thickness submitted. Multicolor close-registration prints are not available on all products.

Please see page 216 for specific information relating to each print method.

## ARTWORK SUBMISSION & PROOFING

### UPLOADING ARTWORK

For the fastest and most efficient artwork processing, please submit art via our website:

<https://www.showdowndisplays.com/artwork>

You must have an account and be logged in. Our factory will not be held responsible for any server malfunction that affects the receipt of your files.

### ELECTRONIC PROOFS

Proofs are provided electronically in PDF format. These depict a low-resolution representation of the final product and should not be used for final color output or image resolution. Additional proofs may incur a proof revision charge of \$10.00(G) each, plus additional design time. Proof approvals must be submitted via our online proofing system before production will begin.

**All proof approvals received after 12:00 p.m. Central will be counted as received on the next business day. Production time begins after the final proof approval is received.**

## GRAPHIC DETAILS

### ERRORS

We will not be held responsible for errors resulting from copy that was received or approved incorrectly.

### TYPESETTING

Our normal art setup fee includes up to three lines of copy. If a specific font is required, the name of that font must be noted on your purchase order. If we do not have the desired font, the type will be re-set using a standard font or one that matches the desired font as closely as possible.

### CHANGE OF COPY CHARGE

Whether for a new or repeat order, any request for an addition, deletion or change to the copy in a vector artwork file will result in an **\$10.00(G) Change of Copy Charge**.

### REPEAT ORDERS

There are no setup fees for exact repeat orders placed within two years of original order. Any artwork older than two years must be resubmitted. Proof approvals are required on all repeat orders.

**\*\*\*ARTWORK THAT HAS BEEN ALTERED IN ANY WAY CANNOT BE CONSIDERED FOR A REPEAT ORDER\*\*\***

## COLOR

### COLOR POLICY

All of our products are printed CMYK (process color). If your artwork requires a specific color, please request a test grid (see below).

**WE CANNOT GUARANTEE COLOR MATCHING.**

### TEST GRID\*

If you are concerned about a specific color, we suggest ordering a test grid. Test Grids are printed samples of your requested PMS (spot) color and its surrounding color family (e.g. reds, blues, etc.) Using process colors, we will replicate the PMS color within the processes capability. Please state on your purchase order that you are requesting a test grid and the specific PMS color(s) you are trying to achieve.

CMYK Process Test Grid Example

### MATCH PRINT\*

A match print is a 1/4 scale print of an entire art file. This is the most accurate way to represent an entire printed piece, since it will mimic the color and appearance of the piece as a whole, excluding any finishing. Please state on your purchase order that you are requesting a match print so it will be recorded on your order.

### TEST STRIPS\*

For the most detailed representation of full-size print quality and image resolution, we recommend requesting a test strip. An 8" x 20" section of the art is printed at 100%. Please state on your purchase order that you are requesting a test strip, including portion of art you would like to see, so it will be recorded on your order.

*\*The first test grid, match print or test strip is available at no charge (customer to pay freight). Each additional test grid, match print or test strip is \$20.00(G) plus freight, expedited charges apply.*

## RETURN POLICY

### CLAIMS/RETURNS

Any damages or discrepancies must be reported within five days of receipt of merchandise. We reserve the right to not honor any claims not reported within five days. Returns will not be accepted after 90 days and cannot be returned without prior authorization from our factory.

Returns may be subject to a 15% restocking fee. Contact Customer Care for additional processing information about claims or returns.

## SUBSTITUTIONS

Due to unavoidable style modifications and enhancements to the products within this catalog, we may need to substitute a product with a similar item of comparable cost and style. We reserve the right to withdraw any product offering without prior notification.

## DEFINITIONS

### SETUP FEE - \$20.00(G)

The setup fee represents all costs of preparing print process-ready artwork for production, as well as email proofing and two years of archival storage. There is no setup fee when referencing a previous order within two years of order placement, for the same item using exact previous artwork.

Setup fee will not be applied to orders placed via our website.

### PRODUCTION LEAD TIMES

A production lead time is the amount of time it takes our factory to produce a finished product once final proof approval is received. Production lead times are listed for each product on their respective catalog pages and are subject to capacity and inventory levels. Your order will be scheduled within our production lead times or with rush service as requested to meet a required in-hands date. The factory reserves the right to adjust lead times. Customers will be contacted regarding affected orders.

Production begins upon receipt of:

- Complete purchase order
- Payment/credit approval
- Production-ready artwork
- Final proof approval

Your order will ship on or before the scheduled ship date via the freight method requested on the purchase order.

### RUSH CHARGES/FEEES

Rush service is available for most products not included in our Quick Ship program; this requires prior approval by Customer Care. All documents received after 12:00 p.m. Central will be counted as received on the next business day. Same-day service is not available.

Standard rush charges:

Subtract one business day from product lead time = \$75.00(G)

Subtract two business days from product lead time = \$125.00(G)

### WARRANTY

All of our products are designed to be cost-effective and durable. Unless otherwise stated on the product's catalog page, standard hardware warranty is a one-year parts and labor warranty, which warrants product against defects in material or workmanship. Warranties do not cover damage due to accidents, abuse, or normal wear and tear. Products found to be defective will be replaced at the discretion of our factory.

### TRADEMARKS

By submitting artwork to our factory, the customer assumes full responsibility for its use. Our factory will not be held responsible for submitted artwork that violates applicable laws or restrictions.

### PROP 65 APPROVED

All of the products in this catalog have been tested to Proposition 65 standards for Lead, Cadmium and Phthalates. Every one of these products can be sold in the state of California without a Prop 65 warning label.
