**CARD STOCK IMPRINT:**

**SETUP:** \$35 for 1-sided,  
\$60 for 2-sided (G)

4-color process

**See all seed paper colors  
on page 87**

### Looking for custom shapes?

We can help! For orders of 100 or more custom shapes, a custom die is required, incurring a one-time setup fee of approximately \$300. The fee may vary based on the size and complexity of your design. Contact us for a quote to obtain precise pricing. We will retain your die for a period of five (5) years for use on your repeat orders. After this period, or if the die needs to be replaced due to normal wear and tear, additional charges may apply.

## Client Spotlight

Monitor Creative wanted to send a promotion that wouldn't be thrown away after, as much of the branded marketing material they have received in the past was. In keeping with their goal to always be innovative, they decided to create a direct mail piece that featured a seed paper bee shape.

### eco APPROVED

- ✓ Made with recycled paper
- ✓ Biodegradable & compostable
- ✓ Tested & approved seeds
- ✓ Grows plants!

## Client Spotlight

As international delegates gathered for the United Nations Plastic Treaty negotiations, a powerful new documentary *Plastic People* sought to break through the noise. Its goal was to bring urgent attention to the health crisis caused by microplastics. Using seed paper postcards, they generated buzz and ignited action.

## Seed Paper Greeting Cards

*Your custom-designed greeting cards printed on seed paper that grows colorful wildflowers*

### ECO TIP

Fixing a leaky toilet can save up to 1,000 gallons (3,785 liters) of water per month. To test, put food coloring in your toilet tank. If it seeps into the toilet bowl without flushing, you have a leak.

66. Airplane (3" x 3.5")

67. Graduation Cap (1.8" X 3.8")

# What's In The Seed Mix?

Unless otherwise stated, all of the prices quoted in the catalog are based on the wildflower seed blend which includes the following seed types:

**Clarkia**

**Black-Eyed Susan**

**Catchfly**

**Snapdragon**

**Sweet Alyssum**

**Bird's Eye**

## Other Seed Options

We also offer a variety of herb and vegetable seed options including parsley, basil, dill, tomato, lettuce, carrot and a tri-herb blend. Contact us for assistance and pricing.

**Parsley**

**Dill**

**Carrot**

**Lettuce**

**Tri-Herb  
Seed Blend  
(Basil,  
Parsley &  
Oregano)**

**Chamomile**

**Basil**

**Tomato**

**Thyme**

**Chives**

## Specialty Seed Options

To create a new seed paper, we charge \$250 to produce a sample and do germination testing with a minimum product order equivalent to 500 11" x 17" sheets of seed paper.

## Custom Seed Paper Colors

Looking for a specific color? We can help. A \$250 fee will apply, and we will work together to create the perfect shade. A minimum order equivalent to 500 11" x 17" sheets is required.

# Seed Paper Colors

|                |   |                 |   |
|----------------|---|-----------------|---|
| BRIGHT RED     |    | BLUE            |    |
| BRICK RED      |    | CORNFLOWER BLUE |    |
| CORAL          |    | FRENCH BLUE     |    |
| TANGERINE      |    | ROYAL BLUE      |    |
| BURNT ORANGE   |    | STONE GREY      |    |
| MARIGOLD       |    | DOVE GREY       |    |
| MUSTARD YELLOW |    | PURPLE          |    |
| YELLOW         |   | BERRY PURPLE    |   |
| OLIVE GREEN    |  | HOT PINK        |  |
| LIME GREEN     |  | LAVENDER        |  |
| EMERALD        |  | PINK            |  |
| WOODSY GREEN   |  | LATTE BROWN     |  |
| TEAL           |  | CREAM           |  |
| AQUA           |  | WHITE           |  |
| GREEN          |  | *ECO NATURAL    |  |

\* Eco Natural seed paper is made with paper we recycle that was also made with a recycled blend so it's twice recycled! It has a natural light brown color and the paper it's made with wasn't previously bleached.

# Order Information

Please contact us with your questions and project ideas.

## SAMPLES

We are happy to provide samples or specific items upon request. Additional shipping costs may apply.

## PRICING

The pricing you see throughout this catalog is based on:

- Full-color printing, with bleed (in most cases)
- Standard ink coverage - no more than 30%
- Trimming and assembly, if applicable
- White plantable paper (unless otherwise specified)

There are many other paper options available at an additional cost. To see this selection visit Page 87.

Pricing does not include freight or insurance to ship the order.

## SET-UP FEES

A \$35 set-up fee will be added for single-sided artwork, and \$60 for double-sided artwork. Additional changes to the layout may incur a charge of \$25 per proof. Products with more than two layouts may qualify for bulk set up fees.

## PROOFS

To begin the proofing process, we require:

- Confirmation of the order and prepayment
- Your custom artwork or logo

Digital proofs via email will then be provided within 24 hours. This service comes at no additional charge, unless there are significant changes to the design and further proofing is required.

### Pre-production Samples

A printed hard copy can be provided to you prior to placing your order. This process does increase the production timeline, but will provide the best possible assurance that your design will print exactly as you envision it. The additional charges are as follows:

- \$10 for a hard copy pre-production sample (printing on untrimmed sheet of seed paper)
- \$25 for an assembled pre-production sample (printing die-cut, and assembled to size)

Set-up fees will also apply but you will only pay this fee once. When you place your full order, there will be no additional set-up fee. If a custom die is needed for your order, we need to order it 1-2 weeks before printing your order.

## COLOR MATCHING

We do our very best to ensure that every promotional piece printed matches your corporate colors. For the best accuracy, a Pantone number from the uncoated library should be provided.

## TIMELINE & TURNAROUND

Average turnaround time is approximately 5 to 10 business days from the time of proof approval on orders up to 5,000 pieces. Larger scale orders (up to 10,000 pieces) may require more time. Once your proof is approved and payment is received, we will work with you to establish an ideal timeline. If you require a faster timeline, additional rush fees may apply.

## SHIPPING

All orders ship using either FedEx or UPS. We'll work together to find the solution that's best for you. All we need to know is when you need your order by, and we'll ensure that it gets there on time.

## INTERNATIONAL SHIPPING

When it comes to seed paper products traveling around the world, we have a lot of experience to provide you with peace of mind that your products will arrive when and where they need to be. Just let us know where you would like to ship to, and we'll make sure that any additional permits, certificates, and information are in place to get it there with ease. International shipping does require extra time and charges, but we do our very best to make it all go as smoothly as possible.

## CUSTOM PROJECTS

### Custom Sizes, Shapes & Printing

Seeing great ideas come to life is what we do. Seed paper is such a versatile and creative medium for promotional products. If you have an idea you'd like to discuss, contact us! We're happy to work with you and help make it happen.

### Custom Seed Blends

Unless otherwise specified, all of the prices in this catalog are based on white wildflower seed paper. If you have something special in mind, just let us know - and we'll let you know if there will be additional costs involved. Herbs such as dill, basil, parsley, chive and mint are all common, as are vegetables like carrots, tomatoes and lettuce. As long as the seed is small enough (and doesn't count as a weed), we'll try our hardest to make it work for you.

## OUR MISSION

*We help people celebrate events and communicate brand messages with sustainable products that reduce waste.*

# Artwork Guidelines

Get the best results every time with these helpful tips for designing your piece.

## TEMPLATES

Product templates can be downloaded on website product pages or you can contact us to have them emailed to you.

If you are implementing a seed paper shape into your design, full-size JPEGs of those shapes are also available for placement.

## PLANTING INSTRUCTIONS

Be sure to include planting instructions in your artwork.

View our **planting instructions kit** with downloadable options and icons you can use.

## PAPER STOCK PRINTING GUIDELINES

### Printing On Card Stock

Full-color CMYK printing is included in pricing. Check product listing to see if bleed is available.

### Printing On Seed Paper

- Pricing includes up to 30% ink coverage.
- Solid dark printing is not recommended, but is not impossible.

### Printing On Colored Seed Paper

- All colors will print differently when the inks mix with a colored paper instead of white.
- Color matching is not guaranteed on colored seed paper.
- Darker, one or two color printing is recommended.

## APPROVED FILE FORMATS

### PDF

PDFs need to be the highest resolution possible (at least 300dpi) including all elements contained within the PDF. Example: If there is a raster image in your PDF (jpeg, png, gif, etc) that is low resolution, this may result in a pixelated print. Avoid using images and logos taken from websites, as they are screen resolutions and are much smaller than they appear on screen when at 300dpi (print resolution).

### Adobe Illustrator, InDesign, or Photoshop & EPS

- All guides must be on an unlocked layer, or removable.
- All fonts used in the artwork need to be sent with the artwork, or converted to paths.
- Links (logos and/or images used in the artwork) need to be sent with the artwork as high resolution files (at least 300ppi/dpi) or be embedded within the document.

### Jpegs and Tiffs

- When sending your art as one flattened raster image, ensure it is saved at a high resolution (at least 300dpi) at the correct size. If bleeds are included make sure the size and graphics have been adjusted accordingly (See SIZE & BLEED).

- DO NOT include any guides in flattened raster artwork.

FILES SENT IN WORD, POWERPOINT, OR EXCEL ARE NOT ACCEPTED.

## FILE PREPARATION

There are a few common things to consider when preparing files for optimal printing.

### Size & Bleed

*What is a bleed?* The bleed is extra image/background that extends past the final trim size when you want the ink to go right to the edge of the paper. It ensures clean edges and is trimmed off in production.

- If your design does not have a bleed, set the file/document size to the actual size of the piece you ordered.
- If your design does have a bleed, please add at least 0.125" of bleed on each side. Your file will be set up larger than the actual size of the piece. For example: the file size for a 2" x 3.5" business card with full bleed would be 2.25" x 3.75".

### Margins

- Make sure the vital artwork has a margin of at least 0.125" (3 mm) from the inside of all edges, with no text or important image components going into this area.
- We always take great care when printing, however, because of the bumpy texture of the plantable paper, please allow for slight shifting in your design. Avoid using a border that follows the edge of the paper.

### Resolution

All artwork (including embedded logos and images) must have a resolution of at least 300ppi/dpi at 100% size for best results

### Color

- Please use CMYK numbers/four-color process numbers. If RGB or Pantone swatches are used, we cannot guarantee color accuracy.
- If submitting artwork, please provide an uncoated Pantone number that we can match to as close as possible. These Pantone numbers are for our reference only, the artwork should remain in CMYK.

NOTE: NOT ALL PANTONE SWATCHES ARE ACHIEVABLE WITH CMYK BASED PRINTING BUT OUR PRINT TEAM WILL MATCH THE COLOR AS CLOSE AS POSSIBLE.

- Please be advised that if printing on colored seed paper, all colors will print differently than they would on white. (See PRINTING ON COLORED SEED PAPER)

### CROP MARKS

Please submit the artwork without crop marks.

### QR and Bar Codes

We recommend making QR codes and barcodes at least 0.5" in size when printing on seed paper. Some codes may need to be larger than that even if they're super detailed. Our team will advise. We will also test your QR code to make sure it works once printed.
