# HOW TO MEASURE

Our garments are cut to accommodate active working conditions. Here's how to get the correct size and ensure a comfortable fit.

## LADIES

Be sure to measure your body. Do not measure over shirts or slacks. Hold tape measure close but not tight against the body.

### BUST

With arms at your sides, measure across the fullest part of the bust, under your arms, keeping tape parallel to the floor.

### WAIST

Measure at your natural waistline at its smallest part.

### LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

## MEN

For men, as a general rule, the number of inches measured will equal your size, when measured correctly. Be sure to measure your body. Do not measure over shirts or slacks.

### SLEEVE LENGTH

Bend your elbow 90 degrees and place hand on your hip. Have someone measure you from the center back of your neck, across your shoulder to your elbow, then down to your wrist bone. The total length in inches is your sleeve length.

### CHEST

With arms at your sides, measure across the fullest part of the chest, under your arms, keeping tape parallel to the floor.

### NECK

Measure around base of neck (lowest part). Number of inches equals neck size.

### WAIST

# TERMINOLOGY

 Comfort Stretch fabric is engineered to provide natural stretch, flexibility and comfort.

 **BIOGUARD®** Bioguard® is an antimicrobial technology that inhibits the growth of odor production and stains.

 Dry Clean Only styles should be cleaned by a professional dry cleaner. Hand or machine washing or drying will diminish garment quality.

 Easy Care styles are just that – easy to care for! Put them in the wash, dry them, hang them up and wear it again. Easy care garments take the work out of looking great.

 Home Launder/Machine Washable is a product designed to be washed in small-batch, mild temperature conditions typical of home machine washers. The garment is designed to last 30–50 wash cycles or more.

 Industrial Launder is a product designed to withstand the large-batch wash/dry/press and high temperature conditions prevalent in industrial and commercial laundries. The garment is designed to last 50+ wash cycles. Bleach and other chemicals are generally not recommended. Customers should test product before using it in environments with chemicals and/or very high temperatures before deciding to use.

 Moisture Wicking fabric draws moisture away from your skin transferring it to the outer surface keeping you cool, dry and comfortable.

OEKO-TEX® STANDARD 100 standards enable everyone to make responsible decisions and protect natural resources.

Products bearing the OEKO-TEX® STANDARD 100 labels have been scientifically tested for the presence of harmful substances and are a better and safer choice for your health.

 Snag-Proof garments resist snags wear after wear. Don't believe it? Try a wire brush!

 Soil Release finish provides for easy care with recommended soil treatment. The release allows stains to be removed more easily during laundering.

 Sustainable Edwards is committed to implementing sustainability measurement tools like the Higg index to drive environmental and social responsibility in our supply chain.

 Tuff-Pil® Plus High-Tech Acrylic fibers used for uniform ready sweater apparel offer low-pil performance, colorfast and durability. The garment is designed to last 30–50 home wash cycles.

 UV Protection means more fun, less sun. The dry-mesh fabrics block harmful UV rays with up to a UPF 50 factor.

 Waterproof garments keep you dry with DWR (Durable Water Repellent) finish and a fully seam-sealed interior.

 Water Resistant garments are coated with DWR (Durable Water Repellent) finish that lets water bead up and roll off.

 Wrinkle Resistant fabric is treated to resist wrinkles and the garment holds its shape with multiple washes.
